PHOTOGRAPHIC EXHIBITION OPENING

People have been photographing the city of love - Paris - and indeed all of France for as long as we've had cameras.

In early 2008, Tim Anger travelled to Paris and the Loire Valley to resample the icons; the people; and the 'savoir vivre' of France through his lens. A series of images from that trip will be displayed at Le Très Bon restaurant in Bungendore - opening in conjunction with Bastille Day celebrations and continuing through until August.

Limited edition, framed artworks will be available for sale throughout this period.

Bungendore-based photographer, graphic artist & web designer - Tim Anger - is the driving force behind enigma creative media. He has held a keen interest in photography since early highschool, but has only recently determined to share his passion with a wider audience - beyond family & friends. He is interested in finding the beauty in objects with his lens - using abstract angles & post processing to bring fresh appreciation to some old icons.
